**BUILD YOUR OWN
PAPER AIRPLANE!**

We invite you to keep Lighthawk top-of-mind, and to build your own paper airplane — see how high and far you can get your plane to soar! Just fold the lines over themselves, in order of their number. **Need a hint? Visit the Lighthawk blog online.**

Wonder what Lighthawk's real planes are doing for conservation? Visit Lighthawk.org. **Donate to keep Lighthawk soaring!**
